### Description

01 External or internal finishing corner profile is recommended for the protection and finishing of the external edges of terraces and balconies with drips (100 x 100 mm).02 Junction finishing profile is recommended for the protection and finishing of the external edges of terraces and balconies with drips.

### Material

Made of painted grey (RAL 7038) Aluminum-Magnesium-Silicon alloy and antique grey.

### Use

Used for the protection and finishing of junction points and external corners of terraces and balconies, thus protecting the edges of the flooring tiles.
