#### Description

Accessory kit allowing perimeter closure of the heat-treated wood tile system. The wooden elements are 2,000 mm long, with a trapezoidal and rectangular shape to facilitate horizontal positioning of the panels. The packages of the Adjustable Support and Extensions, both h. 25 mm and h. 50 mm, contain the necessary components for laying 5.4 m<sup>2</sup> of surface area.

#### Material

Accessories made of PP (polypropylene) and heat-treated pine wood.

#### Use

Accessories Used to give flooring an elegant and sophisticated touch with a uniform effect.
