Description

Syphoned gully with stainless steel AISI 304 BA grating, resistant to weathering and chemical elements, packed in blister. The bottom outlet is provided with a gasket and it can be assembled easily to the cover. The shape and the adjustable grating allows a fast installation for a perfect siphon system, easily inspected. Both available with PP or stainless steel frame and grating. Measures are 115 x 115 mm, the internal outlet dimensions 45 mm the external one is 50 mm.

Material

Made of PP (polypropylene). The grating and/or the frame are AISI 304 stainless steel.

Use

Used for the collection and drainage of stormwater or wash terraces, showers and areas where you need to collect wastewater.
