Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
LUC70-9064	ALUMINUM and textile ridge vent roll	320 mm x 5 m	0	120	PZ
LUC70-9065	ALUMINUM and textile ridge vent roll	370 mm x 5 m	0	96	PZ

### Description

Roof under-ridge in rolls, central part in PP non woven fabric, heat-sealed to the "flashings pleating on the sides made of aluminum or copper. Non woven fabric has been sewn and glued, it has got a central reinforcement for an easy fixing to the roof strapping. Butyl strips on the intrados of flashings element made of aluminum or copper, makes the installation easier ensuring adherence to the brick.

### Material

Manufactured in PVC with aluminium/copper pleating.

### Use

Used to improve ventilation of the roof ridge.
