

ANGLE BEADS IN ROLLS

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1660BOX	Angle beads in rolls	100 x 100 x 25.000 mm	25	24	CF

Description

Angle beads "open angle" with fiberglass heat sealed mesh. The mesh weight is the one used for the insulation system. The angle can be cut to the required length, chipless.

Material

Made of PVC and fiberglass mesh.

Use

Utilized at the corners in the insulation system, it facilitates the laying and the connection with the surfaces.
