INS04-40023/305	Metallic "L" Angle with Paper - Top Edge	12,7 x 24 x 33 x 3.050 mm	0.007	99999	

### Description

Metallic reinforcement angle trim with J shape profile, specifically designed for use with dry-wall system. Reduces the creation of microcavillations (cracks), it does not require a particular plaster and it does not required any screws or nails for the fixing.

### Material

Made of aluminum with paper coating.

### Use

Apply the angle trim on the upper edge of the raw plasterboard panel, thus ensuring a solid and uniform angle.
