INS04-40022/305	Metallic reinforcement angle trim with J sha...	12,7 x 15 x 16 x 32 x 3.050 mm	0	0	0

Description

Metallic reinforcement angle trim with L shape profile, specifically designed for use with dry-wall system. Reduces the creation of microcavillations (cracks), it does not require a particular plaster and it does not required any screws or nails for the fixing.

Material

Made of aluminum with paper coating.

Use

Apply the angle trim on the upper edge of the raw plasterboard panel, thus ensuring a solid and uniform angle.
