INS04-40020/305	Profile 90° V shape with paper - external a...	15 x 23 x 17 x 15 x 3.050 mm	0	0	0

Description

Profile 90° V shape, for external corners, specifically designed for use with dry-wall system. Reduces the creation of microcavillations (cracks), it does not require a particular plaster and it does not required any screws or nails for the fixing.

Material

Made of aluminum with paper coating.

Use

Apply the angle trim on the upper edge of the raw plasterboard panel, thus ensuring a solid and uniform angle.
