

ANTI-DUST MESH

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
RET05-191B	Anti-dust mesh	1,80 x 25 m	270	3780	M2
RET05-192B	Anti-dust mesh	1,80 x 15 m	270	3780	M2
RET05-193B	Anti-dust mesh	1,80 x 10 m	216	5400	M2

Description

Plastic construction site dust screen with white eyelets (dust-proof). Available in varying heights. Packaged in cellophane.

Material

Made of PE-HD (high density polyethylene). It is particularly resistant to mechanical stress, tear and aging by exposure to atmospheric agents.

Use

Used for shading scaffolding, protect property and people from exposure to dust and direct sunlight, and to delimit private areas.
