Description

The DAKUA+ linear shower drain range guarantees the best functionality combined with a modern design. This model is placed against a wall. The block body channel is made of AISI 304 stainless steel that, thanks to the absence of bendings, welds and screws, ensures an easy cleaning and high hygiene standards. The flow rate (44 litres/min) is high, even with lowered heights. All gratings are interchangeable and available in polished, brushed steel or glass. The kit is composed of:- A preassembled grating, ready for installation- A waterproof polyester sheet, shaped on the edge of the channel- A channel body and a stainless steel grating with glass coating- ABS siphoned cup with joint and gasket. The product, that suits the flat flooring, improves the aesthetics of each surface whilst granting the collection of shower waters.

Material

Stainless steel (Channel and Grating) - ABS (Siphon and outlet body) - Waterproof polyester fabric (Waterproof sheet)

Use

This channel is used for the collection of the shower water. It fits perfectly with the floor embellishing the surface aesthetics.
