Description

Drainage channel for the collection of meteoric waters. Designed and reinforced for a high resistance. The channel is available with pre-mounted stainless steel grating with 3 different colors: grey, black, and white. External inlet diameters are \varnothing 32; bottom diameters are 40/63 mm.

Material

Made of PP (channel) and Stainless Steel (grating)

Use

This channel is used not only for the collection and drainage of rainwater. The matching to its pre-mounted steel grating, indeed, make this product perfect to be installed on terraces, balconies, pool areas, locker rooms, bathrooms and for the food industry (commercial kitchens).
