POZ93-1155/R	Dakua+ Gully recessed gully Obli - Ring Kit	200 x 200 mm	8	80	PZ

Description

Gully with a modern, essential and functional design. The block body channel is made up of AISI 304 stainless with a 90° bended external edge that allow to be installed closed to the wall. Moreover, thanks to the absence of welds and screws, ensures easy cleaning and high hygiene standards. The body channel, contains a siphon, a removable basket and a 360° adjustable and removable gasket. The flow rate (40 litres/min) is high, even with lowered heights. 2 interchangeable gratings are available, in polished or brushed steel. The kit is ready for installation, with the provided preassembled grating and includes a waterproof pre-cut polyester sheet, which is shaped to the edge of the channel to protect it against infiltration under the floor.

Material

Grating and gully body made of AISI 304 stainless steel, trap siphoned element and outlet body made of ABS, waterproof sheet made of polyester.

Use

This channel is used for the collection of the shower water. It fits perfectly with the floor embellishing the surface aesthetics.
