

### CORNER FOR ROLLING SHUTTER

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1688	Corner for rolling shutter	150 x 100 x 2.600 mm		18	

#### Description

Angle beads for rolling shutter with heat sealed fiberglass. The plastic profile, is visible, and it is protected by a removable strip, that can be removed after the levelling and painting of the surface.

#### Material

Made of PVC and fiberglass mesh.

#### Use

Utilized to stabilize and protect the angles that are formed between the insulation and the rolling shutter box, it acts at the same time also as drip protection and it's paintable.
