

CORNERS

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1632	Fiber mesh angle bead	100 x 200 x 300 mm	25	48	CF
ZIN33-1633	Fiber mesh angle bead	200 x 200 x 300 mm	25	32	CF

Description

Preformed angular for intrados white color (R131, corresponding to the net weight per square meter of the fiberglass mesh without resin). Packaged in boxes.

Material

Made of fiberglass Adfors Saint-Gobain E type, impregnated with antialcaline resins SBR, axle spacing 3.5 x 3.8 mm and weight of 165 g /sqared meter.

Use

Utilized to strengthen the soffit of the windows, to scatter the tensions and prevent cracking phenomena, ensuring the continuity of the frame structure in the insulation system.
