

DK PLASTER S-GRID

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
RET03-4060	Dk Plaster S-Grid	1,00 x 50 m	50	4800	M2

Description

Fiberglass mesh recommended for the restoration of large lesions and cracks in walls or plaster ceilings. It is the ideal solution for restoring a new plasterboard badly damaged, to be used with normal compound for dry systems. Dimensions height 1.00 x 50 m. Packed in cellophane rolls.

Material

Made of fiberglass Adfors Saint-Gobain (S46).

Use

Used for the restoration of walls or ceilings plasterboard and as reinforcement for plaster and drywalls.
