

EXPANSION JOINT FOR HORIZONTAL PVC COATING

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-2008	HORIZONTAL PVC EXPANSION JOINT	2.500 mm	55	33	CF

Description

Plastic profile for movement joints in ETICS systems, additional floors or similar. Resistant to water infiltration. Prevents possible damage caused by crushing due to tension, ensuring a clean finish. Avoids the use of additional adhesive tape. Rail is rainproof. The joint is maintenance-free and provides a permanent seal thanks to the circumferential adhesive tape. Kit consists of 12.5 m profile (5 bars) and 13 m joint sealing tape (2 rolls).

Material

The movement joint profile is installed in the joint area between two rows of panels. The aim is to minimise the effects of different construction properties.

Use

Polyvinyl chloride (PVC)
