

EXTRUDED ANCHORS

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
TER24-2231	Anchor for extruded panel	90 x 30 mm	1500	40	0
TER24-2233	Anchor for extruded panel	125 x 30 mm	1000	40	0
TER24-2230	Anchor for extruded panel	75 x 30 mm	1500	40	0
TER24-2232	Anchor for extruded panel	100 x 30mm	1000	40	0

Description

Hammering anchor with variable hole, with head 30 mm, without nail for fixing to extruded panels.

Material

Made of PP (polypropylene).

Use

Utilized for the mechanical anchoring of the insulating panels in extruded material (eg. Wood fiber mineralized), supporting the load and the tensile stress " tear off ".
