

FIBRELASTIC - PASTE FILLER

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
TER15-1870	Fibrelastic - Paste Filler 310 ml		12	1200	PZ
TER15-1871	Fibrelastic - Paste Filler 1.5 kg		16	256	PZ

Description

Paste filler, used for interior/exterior repairs. Thanks to its high elasticity, it guarantees great absorption of substrate stress, preventing the formation of cracks. Once dry, it can be painted with any paint.

Material

Made from emulsion resin, calcium carbonate, glass fibre and various additives. The paste is white in colour.

Use

On masonry, plaster, gypsum board, cellular concrete, plaster, concrete cladding.
