| TER15-1885 | Fibrexter - cementitious powder coating - 5 kg | | 1 | 160 | PZ |

Description

Cementitious coating for exterior use. This product can be used for filling and repairing walls. It can also be used for the treatment of joints and skimming on technical slabs (Securock and Innova-t) outdoors. Joint treatment is recommended with a first coat of Finex System and then two coats of Fibrexter. Enables complete shaving of the entire slab.

Material

Made from a cement base, sand, calcium carbonate, resin, fibre and various additives. White colour.

Use

Used on cement, concrete, stone, bricks, old foundations and technical slabs.
