Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
VET02-5000	White undulating glass block fire resistant - Clas...	190 x 190 x 160 mm	2	120	PZ
VET02-5100	White undulating glass block fire resistant - Clas...	190 x 190 x 160 mm	2	120	PZ

### Description

Fire-resistant glass block (EI60 or EI90) which guarantees the maintenance of the characteristics (transparency, brightness, color) over time. The fire resistance is equal to EI60 / EW60 or EI90 / EW90. Resistance to thermal changes up to a maximum of 30 °. Compressive strength. Hot-assembled faces. White paint on the side bands that keep the brightness of the glass unaltered after installation.

### Material

Made of fused glass, coupled and painted on the side to increase its brightness.

### Use

Used for multiple architectural solutions both in domestic or professional environments. It allows the passage of light and / or singular chromatic effects in the rooms.
