

WMESH FOR SKIM COATING | 60G

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
RET02-1069	White narrow fiber glass mesh	1,00 x 50 m	50	3500	

Description

White fiberglass mesh (identification code. R51, corresponding to net weight per square meter of fiberglass mesh without resin). Dimensions available 1,00 x 50m. Packed in cellophane rolls.

Material

Made of fiberglass Adfors Saint-Gobain type E, axle spacing 2.2 x 2.2 mm and a weight around 70 g/m².

Use

Utilized particularly thin, but with good tear resistance, ideal for reinforcing processes with bituminous mortar or liquid membrane (both acrylic resins as well epoxibituminose).
