Description

ABS Adjustable Gully, with stainless steel AISI 304 BA or ABS gratings, measures 150 x 150 mm, packed in blister. The bottom outlet can be lowered oriented and rotated up to 360 degrees. The internal outlet dimension is 45 mm, the external one is 50 mm.

Material

Made of ABS.

Use

Used for drainage of rain water on the terraces, or on screeds little shimmed and/or where the slope does not allow the "elbow" attack to the outlet.
