Description

E-type resin-coated glass fiber mesh for the use on ETICS system. This mesh is particularly suitable for uses that benefit from the 110% EcoBonus as a product accompanied by ETAG004 Certification and Type III Environmental Product Declaration (EPD).

Material

Made of fiberglass Adfors Saint-Gobain type E, impregnated with resins antialcaline SBR, complies with ETAG 004 mesh 4x4,5mm and weight equal to 160 gr/sqm.

Use

Used in thermal insulating systems, ETICS as armor for the smoothing layer in order to absorb and evenly distribute the mechanical stresses to which the system could be subjected (ground settling, shrinkage, temperature changes, external agents) avoiding the formation of cracks in the facade.
