Description

Motorized retractable ladder composed of metal tubular elements with anti-slip texture. Motor including 110V / 220V power supply. UNI EN 149875: 2010 certified, maximum capacity 260 kg. Individually packaged, equipped with radio control. Available in 2 dimensions: 700 x 900 x 3,000 mm 700 x 1,000 x 3,000 mm

Material

It is made of Galvanized Steel

Use

Usually used in homes to reach attics without the encumbrance of a fixed ladder. The ladder can be folded up and disappear to make the ceiling indicated in the presence of a confined space.
