

ANGLE BEAD WITH FINE POINT

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
PRO18-1804B	Angle bead with fine point	25 x 25 x 2.600 mm	130	50	CF
PRO18-1804BX	Angle bead with fine point	25 x 25 x 3.000 mm	150	50	CF

Description

Angle beads drilled on both sides for the sharp corners inside a house, with a tip end that allows a better definition of the sharp edge.

Material

Made of PVC perforated on both sides.

Use

Used to reinforce the corners and allow the laying of the plaster to the thickness defined by the corner of the profile.
