

PLASTERBOARD PLASTERER BANJO

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
TER23-5070	Drywall plasterer		1		

Description

Banjo plastering machine used for making plasterboard joints with adjustable flow. Included in the package, the banjo, the floor wheel, the corner wheel and 2 knobs for adjusting the flow. Capacity of approximately 2 litres of grout, allowing 8 to 12 joints per 2.5 metres.

Material

Made of plastic

Use

Used to speed up and simplify joint grouting. Recommended to use a fairly liquid grout.
