

### PLASTIC STARTER BASE PROFILE

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN32-1680U	Plastic starter base profile	300 x 200 x 2.000 mm	40	30	0

#### Description

Starting profile of fiberglass mesh with a central structure in PVC. The band mesh of 300 mm enables to wrap different thicknesses of the insulating panels.

#### Material

Made of PVC and fiberglass mesh.

#### Use

Used as a base for laying horizontal insulation panels being glued to the wall systems to coat. It should be levelled and combined with the angle drip protection, making the product all-purpose.
