

PLUVIAL COVER

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
POZ02-1358PL	Pluvial Cover	300 x 300 mm	0	800	PZ

Description

Catch-Pit Cover suitable for the insert of the descending rain pipe from the gutter, thanks to the pre-cut sections for 80, 100 and 110 mm diameters. Available in size 300 x 300 mm matched to its correspondent catch-pit

Material

Made of PP (polypropylene).

Use

Used to cover the catch-pit in order to ensure, when is necessary, the inspection. It also allows the insert of the descending rain pipe from the gutter and the collection and the runoff of the water from the roof.
