Description

Horizontal drip edge trim for the protection and finishing of the external edges of terraces and balconies. Recommended for tiles with a thickness up to 12,5 mm. This version allows the water discharge thanks to the holes on the profile.

Material

Made of painted grey (RAL 7038) Aluminum-Magnesium-Silicon alloy and antique grey.

Use

Used for the protection and finishing of external edges of terraces and balconies, thus protecting the edges of the flooring tiles.
