Description

Horizontal end trim for the protection and finishing of the external edges of terraces and balconies. Recommended for tiles or marble with a thickness from 10 to 12 mm.

Material

Made of painted grey (RAL 7038) Aluminum-Magnesium-Silicon alloy and antique grey.

Use

Used for the protection and finishing of external edges of terraces and balconies, thus protecting the edges of the flooring tiles. The particular section also allows the use to protect the edges of steps or pavements by hiding the junction between the tread and the riser.
