

JOINT COMPOUND 2-IN-1

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
TER15-1889	2 in 1 - joint compound - 25 kg	25 kg	1	33	PZ

Description

Ready-to-use paste filler. Its formula has been specially created for filling and smoothing on rough and gypsum board surfaces. This product can be applied manually, roller or mechanically via airless pump with steel ball (ideal nozzles 631 for smoothing or from 635 to 651 depending on the power of the machine).

Material

Made with water, calcium carbonate, adjuvants, thickening agents and binders.

Use

Used for rough surfaces, gypsum board sheets and prefabricated sheets.
