

PVC ANGLES MESHED WITH LOGO

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1664DK	PVC angles meshed with logo	80 x 120 x 2.500 mm	125	40	CF

Description

Angle beads for edge protection with fiberglass mesh. The mesh is the same as the one used for the insulation.

Material

Made of PVC and fiberglass mesh R131 marked Dakota.

Use

Used to maintain uniform laying of the network thus it maintains a uniform tensile strength to the whole structure of the insulation system of the building.
