

PVC ANGLES WITH DRIP PROTECTION

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1669RE	Pvc angles with drip protection	100 x 100 x 2.500 mm	50	40	CF

Description

Angle beads with claw-shaped angle with heat sealed fiberglass mesh, R131. The plastic profile is visible, and it is protected by a removable strip, that can be removed after the levelling and painting of the surface.

Material

Made of PVC and fiberglass mesh.

Use

Utilized as reinforcement and protection of horizontal angles (lintels, balconies, string courses, cantilevers), it operates as a drip protection and it's paintable.
