

# PVC ANGLES WITH DRIP PROTECTION AND STRIP

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1669RVP	Pvc angles with drip protection and strip	100 x 100 x 2.500 mm	1	40	

### Description

Angle beads with claw-shaped angle with heat sealed fiberglass mesh, R131. The plastic profile is visible, and it is protected by a removable strip, that can be removed after the levelling and painting of the surface.

### Material

Made of PVC and fiberglass mesh.

### Use

Used as reinforcement and protection of horizontal angles (lintels, balconies, string courses, cantilevers), it operates as a drip protection and it's paintable.
