| ZIN33-1667PE | PVC angles beads with fiber glass mesh | 100 x 150 x 2.500 mm | 125 | 40 | CF |
| ZIN33-1667   | Aluminum angles plus                   | 100 x 150 x 2.500 mm | 125 | 33 | CF |

Description

Angle beads for edge protection with fiberglass mesh. The mesh is the same as the one used for the insulation.

Material

Made of PVC/Aluminium and glass fiber network.

Use

Utilized to maintain uniform laying of the mesh thus it maintains a uniform tensile strength to the whole structure of the insulation system of the building.
