

RASODAK ECO 1000

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
INS05-50000	RasoDak Eco 1000		25	1000	KG

Description

Adhesive and high elasticity certified mineral plaster recommended for the installation of mineral-based insulating panels on substrates such as concrete, cement plaster, minerals and cementitizers on both internal and external surfaces.

Material

Made of white cement, selected and controlled limestone inerts, hydrated lime and organic additives.

Use

As an adhesive and plaster in ETICS systems using thermal insulation panels made of mineral wool, EPS, XPS, polyurethane and cork.
