

### SHADING WHITE MESH

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
RET05-194	Shading white mesh	1,80 x 100 m	180	2160	M2

#### Description

Woven shading mesh in white, edge slotted. It is particularly resistant to mechanical stress, tear and aging by exposure to atmospheric agents. Available in various height. Packed in cellophane.

#### Material

Made of PE-HD (high density polyethylene), knitted in flat (shading type).

#### Use

To protect property and people from exposure of direct sunlight and to delimit private areas.
