#### Description

Monoblock roof window, pivot hinge or lateral opening (in this case only for the measure of 740 x 800 mm), with double glazing (double tempered glass), thermal bridge 4-9-4 mm. Spruce wood solid waxed frame, ergonomic handle and aluminum pleated strip with butilic adeshive. Available in different sizes (see table).

#### Material

Made of painted sheet dark brown, solid spruce wood, tempered glass and aluminum.

## Use

Used in attics not intended for residential use or over only passage rooms.
