| LUC70-9059B | Aluminum and textile ridge vent roll - light | 380 mm x 10 m | 0     | 48     | 0            |

### Description

Ridge vent roll, central part in non-woven PP fabric, heatsealed to the flashings on the sides in aluminum or copper. Non-woven fabric has been sewn and glued, is equipped with a central reinforcement for easy fixing to the batten. Butyl strips on the bottom of flashings in aluminum or copper, make the installation easier ensuring adherence to the brick.

### Material

Made of PP (polypropylene) and aluminum flashings.

### Use

Used to improve ventilation of the ridge.
