

DIFU STOP 140

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
LUC70-9052	Difu Stop 140	1,5 x 50m	1	30	CF

Description

Non-breathable roof membrane with 3 layers. Made by 2 layers of polypropylene spunbond nonwoven with special coating and 1 vapour barrier. Roll of 1,50 x 50m. Single packed in cellophane tape

Material

Polypropylene

Use

Used to reduce the vapour passage to an optimal level, while avoiding any potential humidity and condensation damage and guarantees the insulation efficient. It protects against infiltration of water, air and wind.
