Description

Rigid support, rot-proof, CFC free, reinforced with two steel plates, injected with foam and phenolic resin reinforced with two steel plates, to ensure a screwing attachment to the base. Composed of an aluminum plate for screwing the elements (assembled in a second time), a compact plate (HPL), optimizes the distribution of the pressures on the surface of the element. Three screwing anchors for assembling are included in the packaging. Height sizes available 80, 100, 120, 140, 160, 180 and 200, width and length fixed 125x138 mm.

Material

Support made of PU (polyurethane), plates made of steel and aluminum.

Use

Used for the insertion of heavy load elements, such as the window shutter.
