TER07-1340I	Syphoned Gully with Lateral Exit (Stainless Steel ...	105 x 105 mm		600	PZ

#### Description

Drain gully, with stainless steel AISI 304 BA grating, resistant to weathering and chemical elements, packed in blister. The bottom outlet is provided with a gasket and it can be assembled easily to the cover, whose height is adjustable from 0 to 80 mm. The shape and adjustable grating of the drain gully allows a fast installation for a perfect syphon system, easily inspected. It's a Dakota patented product. Both available with PP or stainless steel frame and grating. Measures are 105 x 105 mm, the internal outlet dimension is 45 mm and the external one is 50 mm.

#### Material

Made of PP (polypropylene). The grating is AISI 304 stainless steel.

#### Use

Used for the collection and drainage of stormwater or wash terraces waters, showers and areas where you need to collect waste water.
