Description

Dakota's brass tile trim are high-quality tile trims that are designed to define the 'T' profile in tile covering and are made from polished brass. Each individual heat-shrinkable profile is packaged in PVC tubes and features a barcode on both the profile and the tube. The brass tile trim is suitable for use in a wide range of commercial and residential settings. Our brass tile trim is the perfect finishing touch for your tile flooring. The trim is easy to install and can be cut to size on site to accommodate different tile sizes.

Material

Made of polished brass.

Use

Used as finishing and in the end of the tile flooring, or to fit tiles of different colours and/or materials (eg. ceramic and parquet).
