SCA01-590P/6	Wall stairs	700 x 1.100 x 3.000 mm	0	4	PZ
SCA01-590P/7	Wall stairs	700 x 1.200 x 3.000 mm	0	4	PZ

Description

The retractable ladder "Supra" wall is made with bolt-on steps to simplify the substitution or addition. Available in a wide range of sizes (see table) to a maximum height of 3000 mm floor-wall and tread width 80 mm. It is installed on the wall (in vertical position), while maintaining all the features of security when using a floor/ceiling. The retractable ladder "Supra" wall is equipped with a fixing system that allows to locate it even on walls are not perfectly vertical. Incuded lock and "open-close" stick. Individually packed in shrink.

Material

The entire scale is made of tropicalized steel, powder sealed steel while the frame is made of galvanized steel, white enamelled finish.

Use

Usually used in homes and/or relevance and/or technical premises to reach neighboring rooms without the clutter of a fixed scale.

The ergonomic shape of the steps functions as a handrail, while getting up and down the ladder.
