

WINDOWS PROFILE 3D

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1689	3D window profile	2.400 mm	1	40	CF

Description

Profile with self-adhesive PE tape and fiberglass mesh, standard, thermally welded. It is equipped with a flexible TPE seal that allows the absorption of 3D movements due to the different expansion that can be created at the connection between plaster and frame. It is self-adhesive and has a removable membrane on which a canopy can be applied to protect the window. Once the work is finished, the wiper is removed, making the contour invisible, avoiding any residual dirt.

Material

Made from PVC with heat-sealed fiberglass mesh.

Use

Used on the window frame as sealing joint on the plasterboard. It is equipped with a removable adhesive protective cover that protect the glass during the application of the plaster.
