

WINDOWS PROFILE "STANDARD"

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
ZIN33-1690	Windows profile "standard"	140 x 2.400 mm	20	45	CF

Description

Profile with PE adhesive tape and heat-sealed fiberglass mesh, standard or R131.

Material

Made of PVC and fiberglass mesh.

Use

Utilized on the window frame as a sealed connection on the plaster shutter. It is provided with a removable adhesive protective flap that allows the protection of the window glass during the levelling.
