

WMESH FOR SKIM COATING | 70G

Code	Commercial Description	Dimensions	Conf.	Pallet	Selling Unit
RET02-1071	Shaving net R61	1,00 x 50 m.	50	2500	M2

Description

White mesh (identification code R61 corresponding to the weight per square metre of pure glass fibre net of resin). Roll 1 metre high by 50 metres long. Packaged in cellophane wrapped rolls.

Material

Fibreglass mesh type E, with spacing 2.5 x 2.5 mm and grammage approx. 70 g/m² and thickness 0.28 mm.

Use

Used in processes where particularly thin, but with excellent resistance to tearing, reinforcing mesh is required, ideal for reinforcing processes with bituminous mortar, liquid sheathing (both acrylic and epoxibituminous resin-based), various smoothing compounds, fillers.
