Description

Extruded net mono-oriented knitted ovoid garden mesh, orange or green (only heavy line) variable heights from 1.00 to 1.80 m. Available with weight 150 gr/m2 in 50 meters rolls. Packed in cellophane.

Material

Made of polyethylene, it is particularly resistant to mechanical stress, tear and aging from exposure to the elements.

Use

To enclose site areas, indicate the presence of excavations and/or interruptions and demarcate areas for events.
