Description

Extruded debris netting with mono-oriented knitted ovoid mesh, in orange or green. Variable heights from 1.00 to 1.80 m. Available with weight 180 gr/m² in 50 meters rolls. Packed in cellophane.

Material

Made of polyethylene, it is particularly resistant to mechanical stress, tear and aging from exposure to the elements.

Use

To enclose work site areas, indicate the presence of excavations and/or interruptions and demarcate areas for events.
